

Vacancies

Since its foundation in 1990, **POBOS** has grown into a leading consultancy for welfare in organisations. The range of services is subdivided into three areas of activity: 'trauma care' (psychological crisis guidance after shocking or traumatic events), psychotherapy/coaching for work-related problems ('E.A.P.') such as stress, burn-out, conflicts, reorganisation, incapacity for work, etc. and help/support with private-related problems ('Social service') such as medical problems, financial problems, divorce, etc.

Due to growing demand within the first two fields of activity, POBOS wishes to further expand its current network of 175 psychologists.
